DETAILED ACTION

1. The drawing figures are objected to because on Fig. 5, there is no number "22" thereon, as described on page 7, line 4.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 is indefinite because there is no direct antecedent basis for the following recitations: "the top portion" in line 3; "the side" in line 4, "the bottom section" in line 6; "the bottom fume passage inlet" in line 7; "the inclined board" in line 9; "the oil suction framework" in line 10; "the top end" and "the top portion" in line 11; "the side wall" in line 14; and, "the inner side" in line 16. Claims 2-5 are indefinite because they depend from indefinite claim 1.
4. Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
5. The references listed on the PTO-892 show art of interest only, over which the claims define allowable subject matter.
6. Applicants' response to this Office action should also include the following editorial changes: page 8, line 6, "position" should be "positioned"; and, on page 9, line 1, "when" should be inserted after "even".
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Spitzer whose telephone number is (571)
